

Impression: HydraBrush: the initial impression to some is that the Brush-Head is big.

Reality: HydraBrush is actually smaller than other brushes.
See illustration below.

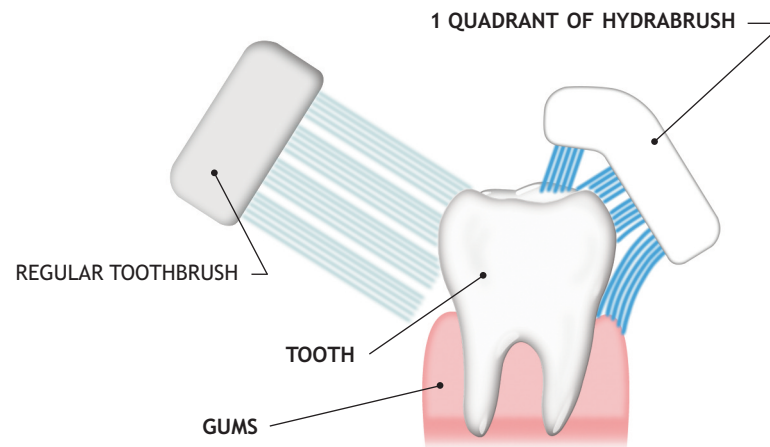

Little Effort . . . **Big Results**

Regular Toothbrush

Compare

HydraBrush

*HydraBrush
in action*

*The small size of the HydraBrush micro-brushes makes it possible to brush all 6 tooth surfaces at one time.
The size of one quadrant of HydraBrush is about $\frac{1}{2}$ the size of a regular toothbrush.*
